EDUCATION

R.C. Patel Institute of Technology, Shirpur

2023 – 2027

B.Tech in Artificial Intelligence and Machine Learning · CGPA: 7.24

TECHNICAL SKILLS

Languages:	C, Java, Python
Frameworks:	Scikit-Learn, TensorFlow, PyTorch, Keras, OpenCV, YOLO
Tools:	VS Code, PyCharm, Jupyter Notebook, Google Colab, Git, GitHub
Databases:	MySQL, PostgreSQL, SQLite
Soft Skills:	Leadership, Communication, Teamwork, Problem Solving, Adaptability
Spoken:	English, Hindi, Marathi

PROJECTS

Stock Market Price Prediction System

Python · Streamlit · TensorFlow · Scikit-Learn · LSTM

- Developed a machine learning app forecasting stock prices using LSTM, Linear Regression, and Random Forest on historical data fetched via yfinance.
- Built an interactive Streamlit UI enabling users to select stock symbols, visualize price trends, and view ML-driven forecasts with Plotly charts.
- Implemented and compared multiple algorithms to improve prediction accuracy and provide model-level insights to users.

Bone Crack Detection Using Deep Learning

Python · YOLOv8 · TensorFlow · OpenCV · Streamlit

- Built a medical imaging system to detect bone fractures in X-ray images using CNN and YOLOv8 with bounding box visualizations and confidence scores.
- Designed a Streamlit interface for uploading X-ray images and receiving instant predictions; annotated training dataset using Roboflow.
- Trained models on Google Colab using fracture-specific datasets; applied OpenCV for image preprocessing and augmentation pipelines.

INTERNSHIP EXPERIENCE

Machine Learning Intern — Internship Studio

Jun 2025 – Dec 2025 | Remote, Pune

- Completed a 6-month ML internship gaining hands-on experience in supervised/unsupervised learning, model training, evaluation, and data preprocessing.
- Worked on practice ML exercises strengthening understanding of regression, classification, and clustering algorithms.

ACHIEVEMENTS & COMPETITIONS

🏆 Project & Poster Competition — PCCOER, Pune (August 2024)

- Competed among 1,500+ participants nationwide; secured 3rd in the Project Competition and 4th in the Poster Competition.

🏆 JamRang 2K25 — Vijaybhoomi University, Karjat (February 2025)

- Led team as Team Leader; achieved Runner-Up (2nd) in Line Follower and Second Runner-Up (3rd) in RoboRace robotics events.

🏆 Mooshak Daud RoboRace — IIIT Nagpur (August 2025)

- Secured 1st Place in the RoboRace Competition organised by the IoTics Club and ECE Department of IIIT Nagpur.

RESEARCH & CERTIFICATIONS

Publication: "Smart Soil Nutrient Detection and Crop Recommendation System Using Sensors and IoT"

IoT-based smart agriculture system for real-time soil nutrient analysis and data-driven crop recommendation.

Certification: Python and Artificial Intelligence — 7-Day Bootcamp (Devetown & AWS)
